PERSONAL STATEMENT

This personal statement helps us become acquainted with you in ways different from course, grades, test scores, and other objectives data. It will demonstrate your ability to organize thoughts and express yourself. We are looking for an essay that will help us know you better as a person and as a student. Please write an essay (250-500 words) on a topic of your choice. You may attach your essay on separate.

When asked why I like Mathematics, I realized that it is all down to my personality. Being a composed, explicit person, I enjoy the challenge of questions with unequivocal answers. Mathematics opened my mind to several new areas of algebra, sequences and series, and functions. I keenly welcomed the new techniques and enjoyed all aspects of the course.

In addition to retaining a strong interest in Mathematics, my fascination for computers has grown. I enjoy programming and cryptography. Now I'm junior in C#, C++, Python, PHP, HTML-5 and JavaScript.

Although I am still unsure of the path I will take after graduating, I know that having a Mathematics/Computing degree will give me many transferable skills. I am currently investigating a number of regions that appeal to me, which include further postgraduate study. For now, I intend to approach the future positively and have many exciting thoughts. I hope to encounter new opportunities, make new friends and rise to the challenge of university!

Although studies take up a great deal of time, I manage to maintain personal fitness by cycling daily. This kind of activity brings on a sense of freedom and allows me to socialize out of school.

I hope to pursue a career related to Mathematics and Computing, and I believe I have the qualities required to carry on those subjects to a higher level and I am enthusiastic about doing so.

All the answers I have given in this application are complete and accurate to the best of my knowledge. I understand that any untrue or misleading information may result in my disqualification from further consideration for admission. If admitted, I agree to observe all the rules and regulations of Dongseo University.

Please sign.

PROFESSOR'S RECOMMENDATION

Professor's Name (please print or type) : Azhmuamedov Iskandar Maratovich Position : Head of Department "Information Security"

School Address : 20a Tatischev Str., Astrakhan 414056 Russia

Your Phone Number : +7 (927) 6636007 Your e-mail : aim_agtu@mail.ru
Area Code *Number* *Ext.*

RECOMMENDATION (Please state freely about why you think this student is eligible for an exchange student)

I have known Aleksandr for three years as his professor and as his programming trainer at Astrakhan State University. During this time Aleksandr has achieved excellent results in these courses – passed all proposed tests, practical works and showed excellent knowledge of both practical and theoretical material. This is evidenced by his marks. Aleksandr showed great interest in the subject, was actively participating in the lectures and showed willingness and ability to study material beyond limits of the courses.

As Aleksandr's programming trainer and professor I can tell, that he has proved to have a divergent, abstract thinking style, native intelligence and good problem solving skills, along with good interpersonal skills and leadership qualities. He also has abilities to handle conflicts and work in a team, which came to be important in his field of study.

Throughout the year, Aleksandr was an active participant in local and regional scientific conferences. He showed himself as a reliable, ready to help person with a good ability to communicate with people of different ages. Based on my professional experience, I evaluate Aleksandr Suslov as an intelligent, respectful, purposeful and initiative person and recommend him for acceptance for chosen program.

I believe that he will perform well in the chosen program and will prove to be a great value of your institution. I am convinced, that education in your university will be a great opportunity for the student to develop further his abilities in scientific and research areas. Please feel free to contact me if you need further information.

Sincerely,

Associate Professor Azhmuamedov Iskandar.
Astrakhan State University Head of Information Security Department
